

## EMBA Class of 2024 Lodging Guide | Fall Term 2023

### Lodging – Immersion Weeks versus Residency Weeks

#### Immersion Weeks – EMBA Program Books

The EMBA program has four Immersion weeks total. Three immersions take place on the Notre Dame campus and one takes place internationally and will require overseas travel.

The EMBA Program selects the hotel and books the lodging for the entire cohort for Immersion weeks. This lodging cost is included in your tuition. The expectation is that all students will stay at the location in order to easily work in learning teams and build relationships with your EMBA peers. Therefore, you do not need to book lodging for Immersion Weeks. Know that we have you covered and you can cross this off your list.

#### Residency Weekends – Students Book

Residency weekends are typically Thursday – Saturday, during business hours. Occasionally, you will have evening sessions during residency weekends. Lodging for Residency weekends is at the student’s discretion and you may choose your own lodging location. However, you may want to book a room in one of the ND Room Blocks.

#### ND Discount Rates & Room Blocks

Notre Dame experiences high traffic weekends throughout the year, such as home football games, parent’s weekends, or other campus community events. On such weekends hotel availability and price are at a premium. In order to help EMBA students have access to lodging when high traffic and residency weekends overlap, the EMBA team has compiled ND discount rate information and when available a block of rooms at one or more hotels near campus. Booking a room within the ND room block is optional. We merely offer these options. **Note:** the hotel has guaranteed room availability on first come basis; however, the price may fluctuate at some properties. We have noted steady pricing where offered.

### **Access to ND Room Block**

At the start of each term, the EMBA Program provides suggestions and when available access to the ND discounted rates or room blocks via secured reservation links. The student is responsible for all lodging expenses and reservation communication is between the student and the hotel.

- The EMBA team has noted below suggested hotels and when available unique links to ND room blocks. A student may make a reservation for all or none of the residency weekends. The discounts and room block are available on a first come basis so we recommend booking for the entire term as soon as possible.
- Each link notes the earliest date to check-in and the last date to checkout for that particular residency.
- After you receive the hotel's confirmation email, you may reach out to them directly to extend the reservation to include additional dates. All additional dates are subject to availability. A student may cancel their reservation per the hotel's standard cancelation policy. Be sure and check the hotel's cancelation policy – it may change for high-traffic weekends.

As always please reach out if you have any questions.

I am happy to help.

Cassie

## Lodging Reservation Links

Earliest Check-in Date	Latest Check Out Date	Property	Deadline to Book	Rate	Reservation Info / Link
