Next Steps

- Passport and Visa Requirements: Make sure your passport is valid and expires at least 6 months post travel dates. Passport offices still encounter long delay times so do this sooner than later.
- Review Travel Health & Safety Risks information and advice for your destination via:
 - [U.S. Department of State](#) country information and travel advisories
 - [CDC](#) country information and travel health notices
- Review the attached working schedule and research/book flights. Be sure to book flights so that you can alter your flight if needed. Travel insurance is highly recommended.
- Review your cellular phone plan for coverage in Spain. You may need to purchase extended coverage for your travel dates.

Warm Regards,
