

## EMBA Class of 2024 Lodging Guide | Spring Term 2024

### Lodging – Immersion Weeks versus Residency Weeks

#### **Immersion Weeks – EMBA Program Books**

The EMBA program has three Immersion weeks in total. Immersions 1 and 2 take place on the Notre Dame campus and Immersion 3 takes place internationally and will require overseas travel.

The EMBA Program selects the hotel and books the lodging for the entire cohort for Immersion weeks. This lodging cost is included in your tuition. The expectation is that all students will stay at the location to easily work in learning teams and build relationships with their EMBA peers. Therefore, you do not need to book lodging for Immersion Weeks. We have you covered and you can cross this off your list.

#### **Residency Weekends – Students Book**

Residency weekends are typically Thursday – Saturday, during business hours. Occasionally, you will have evening sessions during residency weekends. Lodging for Residency weekends is at the student’s discretion and you may choose your lodging location. However, you may want to book a room using one of the ND-negotiated room rates.

#### **ND Discount Rates & Room Blocks**

Notre Dame experiences high-traffic weekends throughout the year, such as home football games, parent’s weekends, or other campus community events. On such weekends hotel availability and price are at a premium. To help EMBA students have access to lodging when high traffic and residency weekends overlap, the EMBA team has compiled ND discount rate information and when available a block of rooms at one or more hotels near campus. Booking a room within the ND room block is optional.

**Note:** The hotels guarantee room availability on a first come basis; however, the price may fluctuate at some properties. We have noted steady pricing where offered.

### **Access to ND Discount Rates & Room Block**

At the start of each term, the EMBA Program provides suggestions and when available access to the ND discounted rates or room blocks via secured reservation codes or links. The student is responsible for all lodging expenses and reservation communication is between the student and the hotel.

- Below are the suggested hotels and when available the instructions or unique links to ND discounted rooms. A student may make a reservation for all or none of the residency weekends. The discounts and rooms are available on a first-come basis so we recommend booking for the entire term as soon as possible.
- Links may note the earliest date to check in and the last date to checkout for that particular residency.
- After you receive the hotel's confirmation email, you may reach out to them directly to extend the reservation to include additional dates. All dates are subject to availability. A student may cancel their reservation per the hotel's standard cancelation policy. Be sure and check the hotel's cancelation policy – it may include an additional fee for high-traffic weekends.

Please reach out if you have any questions.

I am happy to help.

Cassie
